## DETAILED ACTION

### Response to Arguments

Applicant's arguments with respect to claims 1-7 have been considered but are moot in view of the new ground(s) of rejection.

Applicant has amended the claims to be of a scope not previously considered. Consistent with applicant's argument that the prior art relied on in the previous office action fail to show, disclose and/or teach certain aspects of applicant's invention now recited in the amended claims filed on **12/16/2008**.

In response to the prior art of record cited in the previous examiner's action and in support of the scope of the invention now presented in the amended claims, applicant argues at least the following:

"4. *Dane* discloses (column 4, lines 18-27, FIG. 5) an inlet 8 communicating with an injector 9 facing a Venturi chamber 10 with horizontal axis ending in a vertical well 12, in order to supply the external flames. Claim 1 of the present invention claims a specific configuration in order to supply the external chamber: a diverging pair of ascending channels (4a) branching off from the lower inlet (4) (page 5, lines 19-22, FIG. 1). Thus, two channels (4a) are provided with respective nozzles (6). A pair of Venturi chambers (6a) with inclined axis are situated downstream from the pair of nozzles (6) (page 5, lines 23-25, FIG. 1)."

"Also, *Yen* discloses (FIGS. 1-3) an inclined Venturi chamber to supply the internal flame. As result, the inlet 22 for said Venturi chamber does not end in the centre of the body, as claimed by the applicant. Furthermore *Yen* discloses (FIG. 4) three vertical Venturi chambers to supply the external flame, whereas the applicant has two inclined Venturi chambers and only one vertical Venturi chamber."

The claims however continue to contain deficiencies under 35 USC 112, second paragraph.

See the examiner's action herein below.

**Specification**

The disclosure is objected to because of the following informalities:

On page 1, patent number “6,332,460~~81~~” should be -- 6,332,460 B1 --.

Appropriate correction is required.

**Claim Rejections - 35 USC § 112**

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation “the crowns of external flames” in line 6. There is insufficient antecedent basis for these limitations in the claim.

Claim 1 recites the limitation “the center of the body” in line 12. There is insufficient antecedent basis for these limitations in the claim.

All of the claims should be reviewed for similar informalities.

**Allowable Subject Matter**

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 2-7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

**Conclusion**

See the attached USPTO for, 892 for prior art made of record and not relied upon which is considered pertinent to applicant's disclosure.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
